HOW THE SCRAMBLE WORKS

1. Participants will be split into heats of 8-12 scramblers.
2. Three calves will be released into the arena per heat.
3. Participants will be given a rope halter before entering the arena.
4. The halter must be properly placed on the head of the animal in the usual way. It is suggested that all participants become familiar with the proper use of a rope halter and how to place it on the head of a calf before coming to the Scramble.
5. At NO time can the rope halter be used as a lariat.
6. At NO time can the participant tie the rope halter to any part of their body.
7. If a participant has hold of a calf, NO other participant will be allowed to touch the calf until it breaks away.
8. If two or more participants catch the same calf at the same time, it will be turned loose.
9. The first three participants per heat who secure, properly halter and contain a calf will be declared a winner by a Beagle Boys referee.
10. Unnecessary roughness will NOT be tolerated; participants will be disqualified and the animal will be set free.
11. All decisions by Beagle Boys judges and referees will be final.
